"Landforms" Answer Key

VOLCANO

What kind of landform has a vent at the top,
Spews lava and steam and pieces of rock?

CANYON

What kind of landform has very steep sides
That were cut by a river's erosion and time?

WATERFALL

Going over this landform will make you shiver.
It occurs when there's a sharp drop off in a river.

PLAINS

You get this landform when oceans run dry.
They're broad, flat spaces stretching under the sky.

"Landforms" Answer Key Cont'

MOUNTAIN

What kind of landform is the tallest of all
With a spiky top where snow may fall?

RIVER

What kind of landform always runs downhill
And can be used to turn turbines that power a mill?

CAVE

Landforms like this are often times found
In the side of a mountain or as a hole in the ground.

OCEAN

What kind of landform is a huge chunk of water
That takes up three-fourths of the Earth, and is salty?

VALLEY

This landform is found at the bottom of mountains
And very tall hills; it's the low land between them.

ISLAND

To get to this landform, a boat you may ride
Since water surrounds it on every side.

"Landforms" Answer Key Cont'

DELTA

Triangle-shaped landforms like this often sit
Near the ocean where a river finally runs into it.

PENINSULA

Which type of landform stretches into the tides;
Surrounded by water on three of its sides?

LAKE

This large body of water is surrounded by land.
It's a great place to fish or swim, if you can.

HILL

When the wind and the rain wear a mountain away,
The mound that is left is this landform, they say.

CONTINENTS

Which type of landform is just one of seven?
It's a really big place split up into nations.
